

## PAINT LICK MILL DESTROYED BY FIRE

**Midnight Blaze of Unknown Origin Causes Heavy Loss and Damages Garage Owned By T. S. Burnam**

The plant of the Paint Lick Milling Company at Paint Lick, was completely destroyed by fire about midnight Wednesday night. The loss is estimated at \$6,000 or more, and it is understood that it was only partly covered by insurance. W. O. Anderson and his son-in-law, R. L. Hill, were owners and managers of the mill. The latter recently moved to Paint Lick to have active charge of the property. He was connected with the New Dixie Auto Company here for some time and has many friends here.

The origin of the fire is said to be a mystery in every way. A large garage close by the mill, operated by a Mr. Patrickson, was badly damaged. The building is owned by Mr. T. S. Burnam, of this city, and is said to be insured. The discovery of the fire created great excitement in the little city on the Garrard-Madison border. Every possible effort was made to check the flames but with out success, and the mill and its contents were entirely destroyed.

## COL. EPH. LILLARD DIES IN CHICAGO

Frankfort, Ky., April 7.—A telegram was received here last night by relatives announcing the death in Chicago of Col. Eph. Lillard. Col. Lillard was active in Kentucky politics for several years. He held the position of warden of the penitentiary here, and recently was in the office of the State Commissioner of Pensions. He represented Jessamine county at one time in the legislature.

He is survived by two sons and one daughter and his wife, who was Miss Bettie Noe. The body will be brought to this city for burial. Funeral services will be held Friday morning at the Christian church.

Col. Lillard was deputy internal revenue collector under Ben Johnson and storekeeper-gauger in the old Louisville Distillery under Atilla Cox. When the late Col. Jack Chinn, he was the late Gov. Wm. Goebel's body guard, and had just left him when the former governor was assassinated in front of the old Capitol building during Goebel's campaign.

paign. Lillard, Jack Chinn and Bob Franklin accompanied Goebel over the state singing "There's Trouble in the Land."

## CONFESSES HE MURDERED ELWELL

**Mystery of Famous Bridge Player's Death Last June May Be Cleared up By This**

(By Associated Press)

Buffalo, N. Y., April 7.—Altho Roy Harris, alias Leonard, has not deviated from his original story of his part in the alleged murder last June of Joseph B. Elwell, wealthy New York clubman and widely known in Kentucky as a turf follower, Buffalo police today, after a careful analysis of his signed confession, said it did not exactly fit the facts, especially in regard to the time of the shooting and the calibre of the gun used. On the other hand Harris gives a wealth of detail about the incidents preceding the murder.

Buffalo, N. Y., April 7.—Roy Harris, arrested here Wednesday on a charge of forgery, signed a statement to the effect that he and another man killed Joseph B. Elwell, in New York, last June.

Harris says that he and a friend William Dinkin, were accosted on the street by a chauffeur they knew who told them that he had a woman passenger who might pay them well for a "job." They got in and drove about with the woman, who said her name was Mrs. Fairchild, and promised them \$5,000 to kill Elwell. She gave them \$50 each on account and the next morning met them and drove them to Elwell's home on West Seventieth street, where she let them in with a key.

Harris alleges Dinkin shot Elwell. The woman, he said, gave them \$450 each and promised the rest of the money later. Harris says he never got any more and suspects that his pal double-crossed him. He fled the city when the tragedy excited such widespread interest.

The man has been staying at a hotel here with his wife since Tuesday. An acquaintance tipped the local police off that he was wanted in St. Catherine's Ontario, for alleged check forgery and he was arrested. As he was being brought into the station house he said:

"That check thing was all set. I know what you want me for. It is the Elwell murder." Then, without much prompting, he dictated a statement and signed it.

## FOUR KILLED IN ROYAL PALM WRECK

**Southern Railway's Crack Florida Train in Smashup South of Somerset**

(By Associated Press)

Cincinnati, April 7.—Two score of passengers, survivors of the wreck of the Royal Palm Limited passed through here today. All were suffering injuries, some trivial; others not seriously hurt but painfully bruised.

The correct list of the dead includes E. J. Bussey, of Detroit; F. E. Cook, of Orion, Mich.; William Park, of the Soldiers' Home at Grand Rapids, Mich., and Michael Rameh, care J. F. Murphy Sons, Detroit.

The Kentuckians injured are E. B. McWilliams, of Shelbyville, Mr. and Mrs. W. S. Perkins, of Louisville, and the train porter, C. Harris, of Somerset.

Lexington, Ky., April 6.—Four persons were killed and more than 25 injured when the Royal Palm, northbound train No. 2, the crack train of the Southern railway system, was wrecked just north of New River, Tenn., Wednesday afternoon at 2:40 o'clock.

The engine and tender and three coaches were overturned and three of the Pullman cars were derailed. None of the train crew was killed, all of the fatalities having been among the passengers.

The wreck was one of the most disastrous in the history of the Southern railway. It is believed to have been caused by the buckling of rails. The scene of the wreck is about 130 miles south of Lexington.

The dead are: F. E. Cook, Orion, Mich.; E. J. Bussey, Detroit, Mich.; F. Rammich, Detroit, Mich., and W. M. Parks, Grand Rapids, Mich.

Mrs. Lillie King, of Opera Place, Cincinnati, is known to have suffered a wrenched back and H. Demming, Cincinnati, was cut about the face, head and lips.

Joe Kramer, of Chicago, and Harry Sickle, of St. Mary's, O., also were slightly injured.

Injured Wednesday night filled the Beard hospital at Somerset, where they were rushed on a special train. The bodies of those who were killed or who died of injuries were being held at Somerset by railroad authorities. Two of the person killed in the wreck were dead when removed from the wreckage. The other two died on the way to the hospital at Somerset.

F. E. Cook and W. M. Parks were dead when fellow passengers began their search through the wreckage for the injured. Mr. Parks was 87 years old and was an inmate of the Old Soldiers' Home at Grand Rapids, Mich. Identification of the two who died shortly after the wreck was established by papers found on the bodies or by their baggage.

The special train bearing the bodies of those killed and the injured arrived in Somerset Wednesday night shortly before nine o'clock. Physicians were rushed to the scene by railroad authorities from Rockwood, Oneida, Somerset and Knoxville on special trains.

The Royal Palm, which is due in Lexington at 6:35 o'clock, was en route from Jacksonville to Cincinnati when the wreck occurred. The train, which is one of the fastest and best equipped on the Southern system, was loaded with tourists returning from Florida. The train was carrying through Pullman cars for Chicago, Detroit, Indianapolis and Toledo, in addition to the regular day cars. Most of the passengers were from points north of the Ohio river, passengers being carried on the Ohio Special, which follows the Royal Palm.

All members of the train except one escaped without injury. The train porter being the only one who did not escape unscathed. He was badly shaken up. Engineer Miller, of Somerset, was running the train when the accident occurred. He and his fireman narrowly escaped death.

None of the Pullman cars were upset, though three of them were derailed. The three day coaches preceding them were completely overturned. It was in these cars that a majority of those who were killed or injured were riding.

## DAUGHERTY WARNS ILLEGAL BUSINESS

**Especially Building Material Trades to Mend Ways Soon or He'll Get 'Em**

(By Associated Press)

Washington, April 7.—Attorney General Daugherty today sounded a general warning to business that the Department of Justice will countenance no violations of the law. He said the country "should take notice of a new day and a new way," and those guilty of illegal practices should no "close their eyes." He said that statement is a "modest but emphatic warning" to those for whom it is intended and could be regarded as an opportunity for any of those who should mend their ways, to do so.

He said he did not intend to harass business in any way but could proceed under the Sherman anti-trust law, now that the profiteering sections of the Lever act was declared unconstitutional.

Directing a warning particularly to illegal practices in the building material trades, he said an investigation will be undertaken at once in all parts of the country, where necessary. He said reports from some sections indicated the building material situation intolerable.

## ANOTHER BIG POSTAL ROBBERY

(By Associated Press)

Chicago, April 7.—An abandoned mail sack was found by police today and is believed to be a registered pouch stolen by bandits, from a mail truck late yesterday. It contained money, the wrappers indicating that from a half to three fourths of a million dollars were obtained by the robbers. It had been previously reported the loss would not exceed \$50,000.

## ARGUMENT OVER POOLING OF WHEAT

(By Associated Press)

Chicago, April 7.—Delegates to the farmers' conference called to ratify the committee on a national co-operative grain marketing system split today over the compulsory pooling of grains. L. P. Bailey, chairman, of the Kansas wheat growers, declared compulsory pooling will only make the proposed system a success. R. C. Obrepret, another Kansan, asserted "the consuming public would not stand for throwing wheat into a pool to boost the market beyond what it will stand." The first session today adjourned without a vote.

## NEGRO BOSS TELLS OF KILLING ELEVEN

**To Save His Own Neck at Hands of Georgia Planter—Accused of Peonage**

(By Associated Press)

Covington, Ga., April 7.—Fear for his own life was the motive that prompted Clyde Manning, negro farm boss, to help kill 11 negroes employed on the Jasper county plantation of John S. Williams, Manning told the jury Wednesday in the trial of Williams in Newton county Superior Court.

Manning said on cross examination that he did not want to help to kill the men, but feared to disobey Williams, who, he declared, was attempting to do away with the negroes for fear they might testify regarding alleged peonage conditions on the Williams farm.

"It wasn't a bothering me," said Manning, a coal-black, short, stockily built negro of 150 pounds "and I didn't want to get 'em out of the way," but, he added later, "Mr. Johnny said: 'It's their necks or yours.'"

The negroes met death shortly after federal authorities started an investigation of alleged peonage on the farm. Six of them, according to Manning, were chained to rocks and thrown into rivers, and five were struck in the head or shot and buried on the farm.

Throughout an hour of cross-examination, Manning, who was indicted jointly with Williams, denied any pressure had been brought to bear on him to make him tell the story. It was only after long questioning by officers, he said, that he first told his story, but he denied he had been beaten, threatened with drowning or promised a light sentence, if he would help convict Williams, as the latter's counsel intimated.

Manning was the state's chief witness, and during his testimony the court house was packed to capacity. He seemed to be little affected by his recital and rarely changed the inflection of his voice. He is unable to read or write, he said, and is 29 years old, but does not know where he was born.

"When I first remember myself," he said, "I was in Jasper county."

During three hours of direct examination the negro told in detail of the alleged murder of the 11 negroes, giving his description in simple words. He was not asked to describe the alleged binding of the negroes who were drowned, but told how they were thrown off the bridges by himself and Charlie Chisholm, another farm hand, whom, he said, he later helped Williams drown.

"They was stubborn and a-begging," Manning said in his version of the death of Peterson and Willie Preston, "and me and Charley rolled 'em over the banister of the bridge."

These men, as were the others killed, he said, had been lured from the farm by Williams on the pretext that they were being taken to trains and would be allowed to return to their homes in Atlanta or Macon, where they had been taken from jail by Williams, who, it is said, paid their fines.

Peterson and Preston, Manning said, were bound together by a trace chain around their necks to which was fastened a sack containing about 100 pounds of brick. Their hands were bound together by wire, he said, Williams drove the automobile in which the negroes were carried, Manning testified.

Harry Price, another negro taken to be drowned, jumped off the bridge himself, Manning said, when he found there was no hope for him.

"Don't throw me over; I'll get over," Manning quoted Price as having said, and added that the negro with a cry of "Lord, have mercy," flung himself into the river.

Manning then went into the details of the alleged murder of other negroes, declaring one known on the farm only as "Little Bit," was induced to help lift "Red" Brown, another negro, over the bridge railing on the pretext that Williams merely wished to scare Brown. The latter, already weighted down, was dropped into the river, Manning said, and then he said he helped to send "Little Bit" to the same fate.

Another farm hand known only as "Big John," was induced to help dig his own grave on the pretext that he was digging a well and when the hole was about shoulder deep, Manning testified, Charley Chisholm struck the negro on the head, and he and Chisholm filled the hole. Manning continued his testimony until he had described each alleged murder in detail.

He declared Williams was present at the alleged drownings and had ordered the killings, when defense sought to make him admit he was the instigator in the alleged killings.

He said that on one occasion he had attempted to "break away" from the Williams place where he has worked for the last 14 years, said, "Mr. Johnny jumped on me and I ain't tried it no more."

Williams is on trial, charged with the murder of Lindsey Preston, one of three of the negroes alleged to have been brought into Newton county and drowned.

## LOOKS LIKE FIGHT TO FINISH IN BRITAIN

(By Associated Press)

London, April 7.—Premier Lloyd George, in the House of Commons today, announced a complete break-up of the conference between the miners and the government, looking to the coal strike settlement.

The National Union of Railway men today unanimously decided to support the strike of the coal miners.

These events indicate that Great Britain is trembling on the verge of an industrial precipice. Some ray of hope appeared, however, when Chairman Clines of the Industrial Labor party pleaded with Lloyd-George to call the miners and owners together again.

## CHURCH LEAGUE IS UNDER WAY

**Organization Effected Wednesday and Six Teams Are Expected to Take the Field**

The Church Baseball League was launched at a meeting of a number of fans and players that was held in the Daily Register office Wednesday afternoon.

M. C. Kellogg was unanimously chosen president of the league, with power to appoint umpires and handle other details of the league's work. F. C. Gentry is acting secretary of the league, and W. S. Broadbuss was chosen official scorer.

It is planned to start the season next week if possible. President Kellogg, Mr. Gentry and Paul Burnam were named as a schedule committee to arrange the playing schedule and other details. It is hoped to arrange at least two games a week, and a tentative schedule of 20 games or 10 weeks' play was favored. Games will probably be played on Monday and Thursday afternoons.

So far, five teams are ready for organization, or are at least assured for the league. It is hoped to have a sixth, so as to make the schedule of games even all around. The teams and captains so far certain are:

First Christian Church—Paul Burnam, captain.

First Baptist Church—F. C. Gentry, captain.

First Methodist Church—Harry Bybee, captain.

First Presbyterian Church—C. A. Keith, captain.

Second Christian Church—Will Hackett, captain.

It is hoped to have the sixth team of the league organized either from the Catholic church or from the Calvary Baptist church. Just as soon as the schedule committee is ready to make recommendations, another meeting will be called and further details outlined. It is planned to obtain uniforms and full playing equipment as soon as possible. Box scores of the games will be published and the standing percentage kept. A sporting goods house has offered a silver cup to winner of the pennant in the league. All of the games will be played on the Normal school grounds.

In the hope of interesting the older men of the city in healthful outdoor sport and exercise, a rule was adopted that no youngster who is playing on the Normal nine, or the two high school teams shall be eligible to play on a team in the Church League. It is planned to get as many "has-beens" as possible back in the game, and make the sport as interesting as possible. It is probable that the ladies of the Pattie A. Clay Infirmary may be asked to sell season tickets to the games and the net proceeds will be donated to this worthy local charity.

## HOLINESS PREACHER ARGUES HIS CASE

Declaring that he would lose his soul if he sent his two sons to school, Godfrey Isaacs, who says he is a Holiness preacher, made a long argument before County Judge Price Thursday in defense of his case. He was charged by Deputy Sheriff Will Johnson with violating the compulsory education law. One boy is 11 and the other is 13, and neither has ever been to school a day in his life. Isaacs lives near Bobtown and says he came to Madison from Jackson county. He entertained Judge Price with a long sermon on his beliefs. He declared that the Bible does not say a man must be educated. He admitted that he cannot read or write himself. He has practically nothing to support his children upon, so Judge Price filed the charge against him away, after telling Isaacs that the grand jury was liable to take his case up. Judge Price said the man had nothing to pay a fine out of, and to put him in jail would deprive his family of their only support.

### Real Conditions in China

Real conditions of the famine situation in China were contained in a letter received by a Louisville business man from Lorenzo Martin, Louisville newspaper correspondent in Washington. Mr. Martin's letter was in answer to an inquiry from the Louisville man for official data. Mr. Martin's letter follows in part:

"I referred a copy of your questions to the American Red Cross. That organization answered questions number five and six and obtained answers to the other four questions from the China Famine Fund Committee, of which Thomas W. Lamont is the chairman, and headquarters of which are in New York.

"In addition to the information obtained from these sources, I communicated with the Chinese legation and obtained the following facts:

"Officials at the legation say the famine extends throughout the five northern provinces of China. The greatest difficulty in relieving the famine, according to the Chinese legation, is the result of inadequate railroad and transportation facilities in that section of the country. The Red Cross statement says:

"The most reliable estimate which has been received is that the total population affected by the famine is 45,000,000 persons. Of this number it is estimated that from 12,000,000 to 15,000,000 persons are actually threatened with death from starvation unless they receive immediate assistance. The funds of the American Red Cross have been given chiefly for specific purposes and cannot be diverted. The Red Cross has been greatly moved, however, by appeals from China and from available funds, not otherwise committed, has appropriated \$1,000,000 for relief of the famine sufferers. The problem of relief in China is so vast that no single agency can solve more than a small part of it."

The information from the China Famine Committee in New York follows: "The Chinese government has officially approved the solicitation of relief funds in the United States. This approval came in the form of a communication from the Minister of Foreign Affairs in Peking to the State Department in Washington in response to an official note advising the Chinese government of the appointment by President Wilson of the American Committee for China Famine Fund. The Chinese government has borrowed against surtaxes the sum of \$4,000,000 and has negotiated internal loans of smaller sums, the proceeds of same all going for relief work. Free transportation on government railroads is given both to relief workers and supplies. A presidential edict against exportation of food stuffs failed because of the opposition of other governments.

"Purchasing of rice by the Chinese government in this country would be uneconomic. Our own committee in Peking, representative of the most influential Americans in China, strongly oppose purchase of any foodstuffs in the United States for transportation to China. Food can be bought there cheaper than it can be bought here. It is solely a question of money with which to make these purchases. Incidentally the famine district is not a rice eating district. The principal products are wheat, millet, barley and sorghum."

### Col. Crecelius Finds His Dog

(Danville Advocate)

A year ago Col. C. F. Crecelius, engineer in charge of the new street construction in Danville, drove from Richmond to Danville in his car. His dog "Old Flash" came along as an honored guest. After arriving in Danville Col. Crecelius got busy and Old Flash apparently went out in search of his master. The two became separated and although Col. Crecelius made a wide search for his dog, no trace of him was found. He offered a large reward for his recovery. Friday afternoon, while walking out East Main street two dogs came along and Col. Crecelius noticed that one of them was the long missing Old Flash. He called to him, and Old Flash became hysterical and cut all kinds of wild capers, so happy was he to see his old master. From that hour, Old Flash never permitted Col. Crecelius to get out of his sight, until he was taken to the express office and shipped to Col. Crecelius' home in San Antonio, Texas. When his master left the express office Old Flash had been properly crated, Flash almost had a fit, but he was sent away on the long journey.

### Dynamite Cap Maims Boy

Owingsville, Ky., April 7.—The 10-year-old son of John Reid, tore to Paris Monday to visit near here, today picked up a dynamite cap from the roadway. It exploded and tore a large hole in the boys side, destroyed the sight of his right eye, and blew off all the fingers of his left hand.

### MOBERLY

Mr. and Mrs. Luther Park moved to Paris Monday to visit Mr. and Mrs. A. L. Collins and to hear Billy Sunday. Mr. Russell Tipton, of Ravena, and Miss Lona Templeton, of Moberly, were week-end guests of Mrs. Lena Park at Red House.

## It takes Vision to make Big Business

PERHAPS you are a manufacturer making an article of unusual merit, which the people in your locality recognize as good and buy from you with very little solicitation on your part.

If your merchandise are appreciated at home, isn't it reasonable to suppose that they would be appreciated in other parts of the country? The tastes of people in different parts of the country are not radically different, and merit is appreciated as much in one part of the country as in another.

If you could live for several hundred years, perhaps by the end of your life the story of your product would be spread from mouth to mouth, until finally you had distribution wherever possible for you to sell, but unfortunately, time is limited, and you must seek other means of telling people about your product, if you want your business to expand during your life-time. The first requisite of a big business is for the men at the head of it to be able to see a vision of the millions of prospective buyers, and having seen that vision, to go out and tell them about their merchandise in the most direct and most economical manner, which is by advertising.

Your salesmen at best can talk to only a few dealers, and these dealers in turn might talk to a few people if they had time to do so, but you must remember that they have hundreds and sometimes thousands of articles on their shelves, and yours is only one of them. Therefore if you want people to know about your products, you must talk to them direct through advertising, and you will find that merchants everywhere will back you up with proper cooperation.

The function of an advertising agency is to tell you how to proceed in making plans to advertise in the market which you desire to reach, and at the least possible cost to get results. This is the real function of an advertising agency, and their constant experience and study of merchandising and advertising problems of various kinds puts them in position to give sound advice along this line.

Other functions of an advertising agency, which operate after the plans for a campaign have been formed, consist in the selection of mediums, preparation of advertisements, buying of art work, plates, etc., making contracts with the papers, checking insertions to see that they are correctly made, and paying for the advertisements in the various publications. All you have to do is pay one bill to the agency each month.

Remember that advertising agencies act as representatives of the publications, and are paid by the latter in the form of commissions on the advertising which they prepare. The publishers pay these commissions in order to make sure that you will receive the kind of advertising advice and assistance that will make you a successful and continuous advertiser.

There are nine advertising agencies in the South which are members of the American Association of Advertising Agencies. These agencies are listed below, and any one of them will be glad to confer with you, if you are interested in the subject of advertising.

Consult with one of the recognized and accredited Advertising Agencies named below. Allow one of these to submit an outline of the service they are prepared to render. You may be assured that an invitation to call will be appreciated and that no obligation whatsoever will be incurred.

### AT THE MOVIES

Thomas Meighan's first Para-  
mount starring vehicle is "Civil-  
ian Clothes," produced by Hugh  
Ford from Thompson Buchanan's  
popular stage play of the same  
name. The picture will be shown  
at the local theatres Friday.

The story concerns an overseas  
captain who marries a pretty  
American society girl in France.  
She is attracted to him chiefly  
because he is so handsome in his  
uniform. Later, after she returns  
to America, comes news of his  
death. She has renewed her ac-  
quaintance with another admirer  
when her husband, very much  
alive, comes to her home. Disap-  
pointed at his unromantic appear-  
ance in civilian clothes, which  
show atrocious taste in their cut  
and color, she snubs him. The  
gallant ex-captain thereupon  
secures a job as butler in his  
wife's household with the avowed  
purpose of teaching her a lesson  
in democracy. The results are  
amusing in the extreme, and, of  
course, the story ends happily.

In "Tiger True," Fritz Brun-  
ette makes her first appearance  
in a Universal picture since she  
completed her starring contract  
with Carl Laemmle some time  
ago. She now is playing the  
underworld heroine of Max  
Brand's story, opposite Frank  
Mayo, and which will be shown at  
the local theatres Saturday. She  
was starred by Universal in three  
pictures, directed by Douglas  
Gerrard. The most popular of  
these and the one Miss Brunette

### Favored Styles in Silk Hose

WITHIN the last decade American  
women have become more and  
more exacting about their footwear,  
but not always more discriminating.  
A good many of the younger gen-  
eration, at least, are still to be educated  
in the matter of suiting the shoe to  
the occasion and when their eyes are  
opened we shall no longer see satin  
slippers with high French heels mak-  
ing a stab at walking the streets in  
company with fancy stockings. They  
are as much out of place there as a  
party dress at the kitchen sink and  
the same discrimination is needed in  
selecting them as comes into use in  
selecting hats or dresses.

All the feminine world buys silk  
hose and a good pair of plain silk  
stockings has wearing qualities that  
prove a recommendation even to the  
economical. For the street, plain silk  
hose have had a sturdy and sensible

equal in wool hose. For dressy wear  
their competitors are clocked stockings,  
drop-stitch patterns, embroidered hose  
and those with lace inserts over the  
instep; the favored styles are shown in  
the illustration above.

Even for the street low shoes have  
become popular and styles for spring  
and summer point to nothing else.  
There is a decided trend toward dain-  
ty and decorative footwear—a fore-  
runner of this mode appearing above  
in gray suede slippers with beaded  
strap and vamp. But for those who  
like, inconspicuous footwear there is  
the plain satin pump—always good  
style—and not to be displaced by less  
simple things.

## COLVIN ENDORSES SUMMER SCHOOLS

(By Associated Press)

Frankfort, Ky., April 7.—Buildings are important; there must be room for children to play and pure water for them to drink, but this is not enough—the teacher must be properly trained—says State Superintendent of Public Instruction George Colvin in a letter to the school teachers of the state made public here today. The letter urges on the teachers the necessity of attending the summer schools for teachers to be established throughout the state during the summer months.

There will be not less than 75 of these schools, Mr. Colvin says.

"There must be fewer, and larger and better schools," says Mr. Colvin in his letter. "This means transportation. There must be longer terms for rural children. Longer term and transportation will mean more money for the schools, but the children are worth it. Yet no buildings, nor books, nor playgrounds nor length of term, nor size of school will suffice. Children will not learn unless they are taught. They will not be taught unless there be competent teachers. No one can teach that which he does not know. One may know and still be unable to teach that he knows. Professional training also is needed. No school is better than the teacher that teaches it."

Poor schools are not always the fault of the community, said Mr. Colvin, and never the fault of the pupils. "I should like to have every Kentucky teacher feel that education in Kentucky depends upon her; that it is judged by what she does; that if she fails, the failure is not confined to her, but affects the profession throughout the whole state," he continued.

Teachers are now getting better salaries, the people of the state showing their faith in them in this way, and it is now up to the teachers to show their faith in the people by becoming adequately prepared, he said. There is no excuse of the schools being too far away this year, he said, as arrangements are being made to bring the schools to the teachers through the Extension Department of the University and the Normals. Competent instructors will be employed in these schools and they are designed not only to teach the teachers who must take an examination next year but also to care for the needs of those who are more learned.

Financing of the schools has been made easy, he said, through county and city boards making appropriations. They also have promised salary increases to teachers who attend these schools.

## MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."

—Mrs. E. H. Haydock, 3824 St. Lawrence Avenue, Chicago, Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it, but many women have escaped operations by the timely use of this old-fashioned root and herb medicine.

**Groh Through With the Reds**  
Cincinnati, April 7.—Heinic Groh, holdout third baseman of the Cincinnati National League club, announced Wednesday on his return from Augusta, Ga., where he been in training with the team of his brother, Louis, that he would never play another game with the Reds.

He said that the club could trade him, sell him, or force him to remain idle, but that he would not sign a contract. Groh's grievance is that his salary demands were given too wide publicity after, he said, he had made a verbal agreement with Garry Herrmann, president of the club, that nothing would be made public regarding the salary Groh requested or was offered. "In 1919 and in 1920 I had salary differences with the club," said Groh, "but each time I signed, not for the sake of the team, but because of the Cincinnati fans, who have treated me fairly."

## RESPECTED COLORED MAN FOUND DEAD

The body of Scott Smith, a highly respected colored man, was found lying on the back porch at the home of Eugene Walker, West Main street, early Thursday morning. Colored folks living near the Walker home, stated he had not been seen attending to his morning duties around the stable and as he had always been so regular, inquiries were made as to where he could be, disclosing the fact that he was lying stiff on the back porch.

Coroner Muncy was summoned, and selecting a jury, they removed the body to the rear of his store where an examination was held. A verdict of death from natural causes was rendered by the jury. In removing his clothes from his body, \$57 in currency and several insurance receipts, a gold watch and knife were found.

Scott, as he was familiarly known in Richmond, had been a faithful employe in the Walker home for the forty or fifty years, and at the present time was attending to the place while Mr. and Mrs. Walker have been visiting in Asheville, N. C., since Christmas. His body was removed to the home of his brother-in-law, Larkin Blythe, to await the arrival of his only sister, who resides in Ohio.

## MARKETGRAM

(From U. S. Bureau of Markets)  
Grain

Market unsettled the past week easily influenced and prices fluctuated rapidly. On declines there were liquidation of coarse grains for country account and good export demand. On the 6th reports of wet and freezing weather and much colder weather forecast caused a rally from low point but prices declined again at the close. Secretary Wallace's statement that supply of farm products on hand far exceeds present demand was given bearish construction in grain trade. In Chicago cash market number 2 red winter wheat 6c to 9c over Chicago May; No. 2 hard 11-13c over; No. 3 mixed corn 4 1-2c under Chicago May; No. 3 yellow 3 to 4 1-2c under. For the week Chicago May wheat down 2 1-2c at \$1.36 1-8; May corn 3-4c at \$9 7-8c. Minneapolis May wheat down 4 1-4c at \$1.28. Kansas City May 3 1-2c at \$1.27 1-2; Winnipeg May 6 3-8c at \$1.65 1-8. Minneapolis flour demand dull; wheat demand good. Kansas City wheat demand fair, number 2 hard 13c over Kansas City May.

### Livestock and Meats

Chicago livestock prices changed only slightly during the week. Hogs ranged from 5c lower to 25c higher per 100 pounds, light hogs showing the decline. Beef steers steady to 40c lower; cows and heifers down 25c. Feeder steers and veal calves practically unchanged. Fat lambs steady to 25c higher; feeding lambs steady to 50c lower. Fat ewes unchanged. April 6 Chicago prices: Hogs, bulk of sales \$8.75 to \$10; medium and good weight steers \$8 to \$9.40, butcher cows and heifers \$4.50 to \$9; feeder steers \$7.25 to \$9; light and medium weight veal calves \$7 to \$9.50; fat lambs \$7.75 to \$10; feeding lambs \$7.50 to \$8.75; yearlings 7.25 to \$9; fat ewes \$5 to \$6.75.

Hazard, Ky., April 7.—Another negro used his name in procuring a marriage license here in October, 1920, according to Ross McNear, who received a permit to wed from the Perry county clerk. When McNear applied for a license to wed Margie Jones, of Tennessee, it was discovered by the clerk that a Ross McNear, giving his home as Alabama, and with the same parents as those given by the negro, had been granted a passport to matrimony with Elizabeth Smith.

## WHITE LEGHORN HEN BREAKING RECORDS

(By Associated Press)

Lexington, Ky., April 7.—Kentucky's famous little White Leghorn hen, Lady Walnut Hill, appears to be out after another record in egg-laying, according to Arthur S. Chapin, extension specialist in poultry at the Kentucky Agricultural Experiment Station. During March she laid 24 eggs, a total of 46 since she started her 1921 laying on January 21. If she keeps up at her present rate, it was stated she will lay her 1,000th egg early in her sixth year of laying, surpassing all known records.

Lady Walnut Hill is now in her fifth year. Her record to the time she went into her first September was 810 eggs. To attain this record she laid 292 eggs in her pullet, or first year, 180 in the second; 184 in the third and 154 in the fourth.

Beginning January 25, 1921, she laid 4 eggs before February 1. During the 28 days of February she laid 18 eggs and in March laid a total of 240. At this rate, according to Mr. Chapin, she will exceed 150 eggs in her fifth year, or more than the average pullet.

Lady Walnut Hill must "scratch for her living" the same as the other chickens at the station, according to Mr. Chapin. She is fed the same ration as all the others. She has a big appetite, however, for dry mash, the laying ration which contains meat scrap.

"Lady Walnut Hill's record of 24 eggs in March is a wonderful one," said Mr. Chapin in commenting on the famous little hen. "As a matter of fact she, in her fifth year of laying, laid more eggs than 75 per cent of the pullets on the farm. During February the best flock of chickens in the state averaged only 16 eggs each for 168 hens. Chickens usually do their best laying in the pullet year."

Mr. Chapin said that only eight or ten hens have official records of 1,000 eggs during their lifetime. None has such a record under six laying years. Most of them have taken from seven to eight years.

### Finns Are To Annul Dry Laws As Failure

Copenhagen, April 7.—The Finnish Anti-Prohibition Association after a thorough investigation now declares that the prohibition law is a perfect failure. law, the report says, could not be carried through satisfactorily and rather made drinking worse.

The association proposes to abolish the law and replace it with a system of restriction and individual control.

It is proposed to make it easier to get weaker alcoholic drinks than the stronger ones and permit an allowance high enough not to tempt the population to get more through smuggling.

## SAYS AMERICANS DON'T COUNT COST

(By Associated Press)  
 New York, April 7—Despite the fact that 28.9 per cent of the world's savings are in this country and that the average depositor in the United States has a greater sum to his credit than his European neighbor, only 8 per cent of the total number of the world's savers are Americans.

Authority for this statement is the Savings Banks Association of the State of New York, which has made an extensive investigation of savings banks throughout the world. In proportion to population, said a statement issued today, a number of foreign countries exceed the United States in numbers of depositors.

"European people, through centuries of struggle for mere existence," said Dr. H. H. Wheaton, executive manager of the association, "have been trained to the most rigid economy, while Americans have found life a comparatively easy matter. The average American family, until quite recently, made its expenditures on the plan: 'Pay expenses first and save what's left—if there is anything.'"

Dr. Wheaton said that in France one out of every five inhabitants has a savings account. In his opinion, the economy of French people has been their protection against the "death thrusts of centuries."

## Harding's Comfortable Bed

(By Associated Press)  
 Grand Rapids, Mich., April 7—President Harding will sleep in a bed five foot wide and eight feet long, six inches wider and one foot and eight inches longer than a standard size bed. The bed, rushed through by a furniture company here on a special order, has been sent to Washington where it will be set up in the President's bedroom in the White House. Special designers were employed in making the bed.

## Whisky Billed as Tomatoes

Jacksonville, Fla., April 7—With the capture here of a carload of whisky valued at more than \$45,000, billed as tomatoes to route from Perrine, Fla., to Chicago, federal prohibition officers think they have found the source of a nationwide liquor smuggling syndicate. Announcement of the capture was made Wednesday.

## Clay County Killing

Manchester, Ky., April 7—Hugh Gregory, about 50 years old, shot and instantly killed Gill Lewis, 42, at the store of the latter on Horse Creek, about three miles south of here, Tuesday night. The men were brothers-in-law. Lewis leaves a widow and three children ranging from 5 to 11 years old. Gregory came here Wednesday and gave himself up to the county officials and was released on bond. His examining trial will be held the last of this week.

## Of Interest to Women

A prominent physician says that by far the largest number of women's ailments are not surgical ones, that is they are not caused by serious displacements, or growths. Symptoms similar in character are often brought about by much simpler conditions. We therefore urge every woman who suffers from backache, headaches, bearing down pains, side ache, irregularities, nervous despondency or weakness to give Lydia E. Pinkham's Vegetable Compound a trial. It acts as a natural restorative and often prevents more serious troubles.

## Two Vacancies For Middies at Annapolis

On account of a resignation there are now two midshipmen vacancies in the roster at Annapolis and an examination for applicants will probably be held about April 20 unless some nominee qualifies through school rating. Applicants for the examination should write to Senator Richard P. Ernst, Covington, Ky., before April 9. Complete information will be made public as soon as it is received from the navy department.

## Burglars In Home When Couple Return From Rid

Louisville, April 6—Thieves were surprised in the act of robbing the home of J. M. Cecil, Virginia avenue. Mr. and Mrs. Cecil went out for a drive and returned half an hour later. As she entered the dining room Mrs. Cecil saw her silverware piled on the floor. At the same time she noticed a light under her bedroom door. Realizing burglars were in the house, she ran out to call her husband. As she returned, she heard a noise in the bedroom of the window being raised. The burglars escaped.

## Plant To Generate Current For Many Cities Planned

Somerset, April 6—Notice is given in a local paper that unless valid opposition is forthcoming a dam will be built between Burnside and Williamsburg, to furnish power for an immense electric plant. J. S. Wallace, representing capitalists of West Virginia, heads the project. It is said that \$3,000,000 will be spent and that work will be begun at once. Much of the equipment and supplies already have been purchased. It is expected that electric current will be furnished as far away as Lexington and Louisville, and the location of factories nearby is expected.

# A Fund of Information That You Should Have

Disraeli, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocketbook to study the advertisements in the Daily Register—regularly—every day.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy—
